LATE MODEL STOCK AND LIMITED SPORTSMAN AMENDMENT

EFFECTIVE APRIL 20TH, 2019

In addition to rule 20F-2.1 section H page 66 of the NASCAR 2019 LMSC rulebook

H. Streamlining of the contours of the vehicle such as headlights, front bumper cover, front air dam, grilles, roof, and the top of the windshield and rear window will not be permitted. Installation of air directional devices, underpans, baffles, dividers, shields or the like beneath the vehicle or the vehicle's hood and fender area, front firewall, floor, rear firewall area, rear deck and quarter panel area will not be permitted. Any part or component of the car, not previously approved by Track Officials, that has been installed or modified to enhance aerodynamic performance, will not be permitted. Vehicles must remain standard in appearance.

Any and all bracing underneath the car must be from materials not designed to assist air flow underneath the car, flat plates of steel will not be allowed even with holes drilled in them. Any such items found during post-race inspection will result in the car being disqualified from the event.
