Handicap/Passing Points Amendment
Late Model, Limited, and Pure Stock Divisions
Effective 5 18 2019

Driver Serving Handicap:

Any driver receiving a handicap for winning 2 races in a row may elect to go to the rear of the field (last position). If driver so elects they will then be eligible for passing points throughout the field regardless of original qualifying position. If driver elects not to go to the rear of the field they will only receive passing points from their original qualifying position.
